

Aashik Ilangovan

587-891-9667 | aashikilangovan@gmail.com | aashikilangovan.github.io | www.linkedin.com/in/aashiki

Skills

Languages: Java, Python, C++, C#, JavaScript, TypeScript, HTML/CSS

Frameworks: React, Next.js, Node.js, Express.js, .NET Framework

Databases & Cloud: SQL, PostgreSQL, MySQL, MongoDB, Oracle, AWS (Cloud Practitioner), Microsoft Azure

Tools: Docker, Git, Postman, Selenium, JUnit, Power BI, Tableau, Figma, Photoshop

Education

MASTER OF MANAGEMENT | *UNIVERSITY OF CALGARY*

AUG. 2025 – APR. 2026

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING | *UNIVERSITY OF CALGARY*

SEP. 2019 – JUN. 2025

- Minor in Entrepreneurship & Enterprise

Professional Experience

JUNIOR SOFTWARE ENGINEER | *U TECHNOLOGY CORP.*

MAY 2026 – AUG. 2026

- Developing a full-stack platform that digitizes specification workflows by enabling users to create, edit, submit, and track specification sheets with approval workflow processes, **reducing a multi day process to minutes**
- Building and maintaining application functionality across frontend, backend, and database layers, including form management, workflow logic, API integrations, and data persistence (**Next.js, React, PostgreSQL, TypeScript**)
- Designing reusable specification templates and database structures to support flexible document generation, storage, and scalable workflow management
- Collaborating with U.S. clients, engineering, and marketing teams to gather requirements, troubleshoot issues, and translate user feedback into prioritized software enhancements
- Supporting **Azure App Service** cloud deployment processes by managing environment configurations and contributing to application testing, documentation, and production readiness

SYSTEMS DEVELOPER STUDENT | *CANADIAN NATURAL RESOURCES LTD.*

JAN. 2023 – AUG. 2023

- Collaborated within a 50-person Engineering Information Management team, communicating technical recommendations and system improvements to both technical and non-technical stakeholders
- Improved system performance and workflow efficiency **by ~30%** through application optimization and process improvements
- Developed and employed user-friendly and responsive front-end interfaces for in-house applications, *utilizing .NET Framework and C#*
- Built and automated Excel reporting tools using VBA, PivotTables, and VLOOKUP to reduce manual reporting effort and improve data accuracy
- Performed SQL and Oracle-based data extraction and validation to support reporting and business decision-making

Industry and Academic Projects

RETAIL BUSINESS SOLUTION (CAPSTONE) | *WAH-HING MEAT SHOP*

SEP. 2023 – MAY 2024

- Acted as Project Manager for a 6-person team, coordinating deliverables, leading stakeholder communications, and securing **100% sponsor approval** on final solution
- Conducted market research, client interviews, and feedback loops to shape data-driven design decisions that were implemented into co-developed front-end UI/UX, maximizing user satisfaction and business alignment
- Translated business requirements into digital strategy and technical specifications, integrated APIs and managed back-end systems to ensure reliable system performance
- Produced clear documentation and training resources to support long-term sponsor adoption, scalability, and knowledge transfer

Utilized: *JavaScript, MongoDB, Express.js, React.js, Node.js, Figma, Tableau, Docker, Excel, Photoshop*
